Data health gets a good check-up with ibi™ and IBM Z

Customer Profile:

With over 5,000 employees, one of the largest departments in the state's government is responsible for administering a variety of programs that keep residents safe and healthy.

Challenge

Make it easier for program managers to stay on budget by accelerating access to critical financial data.

Solution

Transform the business faster with IBM Z and ibi Data Integration tools. Flexible configuration and embedded security bring together rich datasets and allow access via WebFOCUS to enable all users to view reports at various levels of summary detail by establishing a web-based reporting and forecasting environment.

Benefit

Users can instantly access financial data needed to accomplish directives; managers can forecast results of monthly expenditures to get an accurate prediction of year-end balances; accounting professionals can obtain month-end reports one week sooner than before.

> "WebFOCUS combined with ibi integration tools lets us leverage IBM Z in a scalable, secure environment. Now, our users can quickly click down through hyperlinks to find the exact information they need, instead of flipping through a two-inch thick paper report."
