

Innovation Spotlight:

AI-powered analytics in ibi™ WebFOCUS® 9.3.7

The ibi WebFOCUS Data & Analytics Platform includes:

- **ibi™ WebFOCUS**
 - WebFOCUS Hub
 - Designer
 - ReportCaster
 - Reporting Server
 - DSML Services
- **ibi™ WebFOCUS Container Edition**
- **ibi™ Data Migrator**
- **ibi™ Data Intelligence**
 - ibi Data Quality
 - ibi iWay Service Manager
 - ibi iWay Trading Partner Manage
 - Data Integration & Master Data Management

Plus, get:

- **Unlimited usage & environments**
- **All add-ons & adapters**

Unlocking the power of generative AI for the modern enterprise

The release of ibi™ WebFOCUS® 9.3.7 marks a definitive shift in the analytics landscape. This version introduces a suite of new AI capabilities designed to transform how organizations interact with, interpret, and act upon their data. By embedding advanced intelligence directly into the platform, 9.3.7 allows every user—from the front line to the executive suite—to harness the power of autonomous analytics.

In an era where data is abundant but actionable insights remain elusive, the ability to rapidly synthesize information into strategic direction has become the ultimate competitive differentiator. ibi WebFOCUS® 9.3.7 is engineered to meet this moment, transcending traditional business intelligence by embedding advanced Artificial Intelligence and Machine Learning directly into the fabric of the platform. This release represents a pivotal evolution for our customers, moving beyond static reporting toward an AI-powered analytics environment that understands your business logic, predicts future trends, and speaks the language of your organization.

ibi WebFOCUS 9.3.7 makes AI accessible for your entire enterprise—streamlining problem solving and analytics insights.

New in 9.3.7: Better features, bigger results

The centerpiece of this release is the massive advancement in the AI and Natural Language suite of WebFOCUS. These features are newly engineered for the 9.3.7 environment:

- **The phi-4 AI Model Integration for NLQ:** We have upgraded the underlying engine of WebFOCUS NLQ to the phi-4 model. This transition provides a significant boost in computational reasoning and linguistic precision. This isn't just an incremental update, it is a fundamental shift that allows the system to better understand complex business logic and nuanced data relationships with unprecedented accuracy.
- **Next-Generation Natural Language Query (NLQ):** While WebFOCUS has pioneered Natural Language Query in previous versions, 9.3.7 introduces a generational leap in performance. The new NLQ interface is faster, more intuitive, and more resilient. Users can now ask sophisticated questions and receive highly accurate, context-aware answers in seconds, virtually eliminating the learning curve typically associated with advanced data exploration.
- **Intelligent Discovery & Instant Visual Toggles:** 9.3.7 introduces the ability to instantly toggle between high-impact visual charts and deep-dive data tables within the WebFOCUS interface. Coupled with new AI-driven chart recommendations, the system doesn't just give you an answer, it suggests the most effective way to visualize that answer based on the data's unique characteristics.

Why Upgrade to 9.3.7?

Upgrading to WebFOCUS 9.3.7 is more than a technical maintenance step, it is a strategic move to an **AI-first analytics posture**.

- **Accelerated Speed-to-Insight:** Reduce the time spent on manual report creation by empowering users to generate their own insights via NLQ.
- **Maximized Data ROI:** Put the power of your existing data stack into the hands of every employee through a simplified, intelligent interface.
- **Future-Proof Scale:** Stay ahead of the technology curve with a platform built for the latest in cloud-ready architecture and AI model performance.

The future is waiting for you

The move to WebFOCUS 9.3.7 is more than a technical milestone, it is a commitment to a future where data works for you, rather than the other way around. By unifying the world's most scalable reporting engine with the next generation of AI and Machine Learning, ibi provides the foundation for a truly intelligent enterprise. As you look to scale your digital strategy and empower every corner of your organization with predictive clarity, WebFOCUS 9.3.7 stands as the definitive partner in your journey toward autonomous, data-driven excellence.
