Large manufacturer uses ibi™ products + the IBM Z platform to boost their supply chain with better data

Customer Profile:

One of the largest man-ufacturers in the world and a leading supplier to construction, automotive, aerospace, packaging, rail, and engineering markets.

Challenge

Empower users with timely, comprehensive information on customer-order and steel-production processes drawn from a selection of sources including SAP, a variety of mainframe systems, and other disparate data sources.

Solution

Ensure secure, real-time access to data on IBM Z platform to satisfy a multitude of end user analysis requirements by centralizing a portal using purpose-built, value-driven data tools.

Benefit

Unifies data from different systems to create a seamless digital customer experience. Analysis is significantly faster, enabling higher yields and faster response times for customer inquiries.

> "One of the key reasons we chose to work with ibi is their products enable us to easily pull data out of many data sources and join it with other data from our IBM Z platform."
