

The Academic Alliance Program

Data sheet

Fostering the next generation of data and analytics professionals

The ibi Academic Alliance Program enables higher education institutions to use our industry-leading WebFOCUS business intelligence (BI) and analytics platform for instruction in their data science and analytics courses to address the current shortage of data and analytics skills in the national job pool. Integrating WebFOCUS into academic curricula, students can use our Designer tool and RStat for predictive analytics and statistical modeling to create high-value visualizations, dashboards, reports, and analytical applications that are essential in the business world.

Program members will receive:

- > Our professional curricula that they can adapt for academic purposes
- > Access to our myibi customer collaboration and community platform
- > Support through our online channels
- > Access to video training resources
- > Access to our customer base

Free education-only software licenses

A curriculum you can adapt

Access to our customer base

Placement opportunities

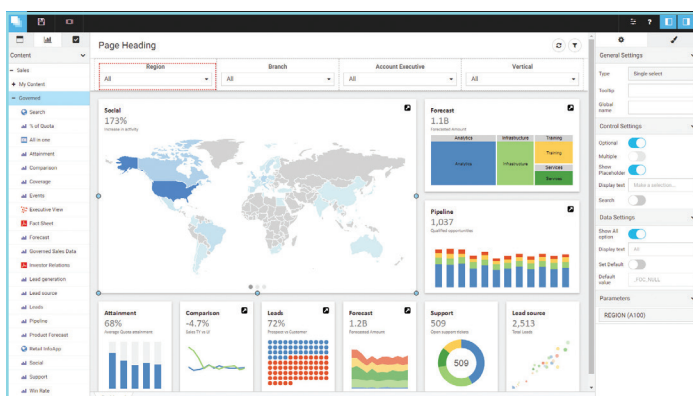

In addition, program members will be able to offer certification courses for business analysts and application developers leveraging our free curricula and coursework. Topics covered include metadata, tool training, advanced reporting techniques, and building a BI portal.

About ibi

ibi is a data and analytics company that embeds intelligence into — everything. From the beginning, ibi has known the importance of data and insights to make better decisions. We help organizations get their complex and disconnected data in order, so they can build, embed, and automate intelligence into everything they do. By preparing organizations for the future and turning them into builders – information builders – everyone can use enterprise trusted data at scale to drive their growth. Whether our customers use pre-built applications or build their own solutions for their data and analytics challenges, ibi powers their innovation and reinvention. ibi's open platform and industry-specific building blocks accelerate speed to market, improve operational efficiency, and enhance their customers' experience.

ibi. build a better future.

The ibi Academic Alliance strives to help higher education institutions produce future generations of data and analytics leaders.
