

Power your data-driven culture with intelligence for all

We've built our analytics platform over 45 years and countless clients. Today, that means superior visualization, at-your-fingertips insights generation, and the ability to democratize access to data. The single-minded goal? To help you achieve business results by harnessing the power of your data to drive informed decision-making.

If you're looking for self-service analytics with the power of enterprise, this is it. Access all of your data, faster, without sacrificing a solid, trusted data foundation for amazing visuals and reporting that illuminates business opportunity. We've designed our modern state-of-the-art analytics platform for business users and advanced data professionals who need to create, publish, share, and collaborate on analytics content quickly to get results.

Tell a stronger data story through visualization and reporting

Bring data to decisions across your organization with tools designed to drive insights and supercharge collaboration at scale. An intuitive, immersive experience invites new users to begin creating dashboards and reports in minutes. This same platform empowers data scientists, developers, and administrators to leverage powerful capabilities to manipulate and transform data within an unparalleled data prep and governance foundation.

Powerful discovery and creation:

Explore, create, analyze, publish, and collaborate on analytics content

Seamless distribution:

Share and distribute fully customizable analytics at scale

Flexible, connected, embedded capabilities:

Easily connect to any data source, and deploy to tens of thousands of users and thousands of apps

➤ Pilot our platform. See for yourself why leaders around the world choose ibi. Visit ibi.com/free-trial.

The ibi platform enables and empowers all types of users to discover, create, and share throughout their data and analytics journey, enabling informed decision-making across the organization.

Our easy authoring increases the speed and ease of asset authoring and assembly with fully responsive templates, reports, charts, maps, and controls. Empower your organization to make sound strategic decisions by employing real-time, customized, and self-service analytics in every aspect of your business.

Unlock data science for all with AI-powered insights

Augmented analytics – the ability to incorporate machine learning and artificial intelligence (AI) into business intelligence (BI) – is transformative, from automating data prep through insight discovery. ibi's **Automated Insights** does the work for you, explaining signals and trends in data via automated narratives, without requiring manual effort or coding. Our AI engine gives business users the power to run advanced analyses to get to the heart of the data story quickly and spend more time driving business outcomes.

Share analytics seamlessly to foster a data-driven culture of collaboration

Achieve limitless, fully customized distribution of your analytics – getting the right data to the right people based on complex business logic. Easily distribute interactive reports and dashboards to an unlimited number of recipients, whether they be partners, employees, or customers.

Plus, with our ibi **Analytics Anywhere** feature, recipients don't even need to connect to a server to explore data with filters, calculations, roll-ups, or pivot capabilities. All they need is a browser.

Unlock better automated access for teams and collaborations with flexible deployment and scalability.

Connect your BI platform to any data source

The ibi platform is an open and scalable framework, so you can use it alongside some of the most popular BI tools in the market. Our technology seamlessly connects all of your tools to your enterprise data sources and virtually any database, file format, or web service in real time. Smarter decisions rely on a trusted data catalog, which serves as an inventory of curated data for data prep, data science, and visualization. Enable personas across your organization to use popular BI tools they're familiar with while enhancing the underlying data in a secure, scalable, and governed manner.

Seamlessly embed superior analytics into your business and applications

Enterprises and OEMs scaling to any number of end users can embed ibi's platform and components with total flexibility. We prioritize seamless use for all – no separate sign-ons, just one center of truth for all data.

Customized experiences let your team and customers share data broadly and use it most efficiently. Our partners leverage ibi building blocks for monetization opportunities that drive growth, diversified revenue models, and increased customer engagement – all while they focus on their core strengths and leave the specialized development to us.

Embed data and analytics into your products and services with total flexibility and deliver seamless, superior experiences for your customers.

Deploy quickly, any way you want

When it comes to deployment, we prioritize security, reliability, scalability, and flexibility. Whether you want to leverage all the benefits of the ibi Cloud, or manage your own (in a private cloud or on-premise), ibi products and services deliver leading-edge capabilities to power growth through better data and analytics.

About ibi

ibi is a data and analytics software company that embeds intelligence into — everything. From the beginning, ibi has known the importance of data and insights to make better decisions. We help organizations get their complex and disconnected data in order, so they can build, embed, and automate intelligence into everything they do. By preparing organizations for the future and turning them into builders – information builders – everyone can use enterprise trusted data at scale to drive their growth. Whether our customers use pre-built applications or build their own solutions for their data and analytics challenges, ibi powers their innovation and reinvention. ibi's open platform and industry-specific building blocks accelerate speed to market, improve operational efficiency, and enhance their customers' experience.

ibi. build a better future.
